Portfolio: <https://silviocardoso.dev>

## Professional Summary

Front-End Developer with 5+ years of experience building scalable web applications and enterprise e-commerce platforms using React, TypeScript, and JavaScript. Delivered digital experiences for brands including KitchenAid/Whirlpool, Honda, Itaú, and Órigo, with experience in performance optimization and reusable component architecture.

## Technical Skills

**Languages:** JavaScript, TypeScript, HTML, CSS

**Frameworks:** React, Next.js

**Backend:** Supabase, REST APIs

**Platforms/Tools:** VTEX IO, Git, GitHub, Figma

**Additional:** Generative AI, Responsive Design, Accessibility, Performance Optimization

## Professional Experience

### Jüssi — a WPP Company | Brazil

*Front-End Developer | May 2021 – Oct 2024*

*Junior Front-End Developer | Apr 2019 – May 2021*

*Web Development Intern | Jun 2018 – Jun 2019*

- Developed and maintained customer-facing digital experiences for enterprise clients including Whirlpool/KitchenAid, Honda, Itaú, and Órigo using React, JavaScript, CSS, and enterprise web platforms.
- Improved Lighthouse performance through legacy CSS architecture refactoring, removal of redundant styles, and front-end rendering optimization for KitchenAid Brazil.
- Built reusable React components and contributed to Front-End architecture designed to improve maintainability and scalability.
- Developed customized checkout and authenticated customer experiences by extending native VTEX functionality.
- Collaborated with developers, QA, design, marketing, and product stakeholders to deliver production-ready features.

## Selected Projects

### FL PsicoFlow — Founder & Lead Developer | 2026 – Present

Next.js • React • TypeScript • PostgreSQL • Supabase • Generative AI

- Architecting a full-stack SaaS platform for behavioral health professionals using Next.js, React, TypeScript, PostgreSQL, Supabase, and Generative AI.
- Built workflows for patient management, scheduling, clinical documentation, records, and financial tracking.
- Implemented PostgreSQL RLS, workspace isolation, data ownership controls, and AI-assisted documentation with data minimization and sanitization.

## Education

Caroline University | California, USA

Master of Computer & Information Systems (MCIS) | Expected 2027

Universidade Nove de Julho | Brazil

Bachelor Degree in Computer Science | 2019
