Professional Summary

Front-End Developer with over 5 years of experience creating scalable web applications and enterprise e-commerce experiences for global and major Brazilian brands. Skills in React, TypeScript, responsive interfaces, reusable component systems, front-end architecture, and performance optimization. In one of my most impactful projects, I achieved a 72% increase in store loading speed through CSS architecture refactoring and front-end optimization. Currently pursuing a Master's degree in Information Systems in California and developing an AI-powered workflow platform for healthcare professionals in the field of psychology.

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, React, HTML, CSS

Front-End Development: Responsive Web Development, Component-Based Architecture, Reusable UI Components, Performance Optimization, Accessibility, Debugging, Code Review

AI & Automation: Generative AI, Prompt Engineering, AI-Assisted Development, Workflow Automation

Platforms & Tools: VTEX IO, Drupal, Laravel, Git, GitHub, Figma

Professional Experience

Jüssi — a WPP Company - Brazil

Mid-Level Frontend Developer

May 2021 – October 2024

- Developed and maintained large-scale e-commerce experiences for KitchenAid Brazil, part of Whirlpool Corporation, using React and VTEX IO.
- Improved website performance by 72% by refactoring CSS architecture, simplifying legacy styling, and optimizing frontend rendering.
- Built reusable component systems and contributed to frontend architecture standards that improved maintainability and scalability.
- Developed customized checkout and customer account experiences by extending native VTEX functionality.
- Conducted code reviews and collaborated with design, marketing, and development teams to deliver production-ready features.
- Supported software quality and continuous improvement initiatives across the platform.

Junior Frontend Developer

April 2019 – May 2021

- Developed responsive interfaces and implemented new features for major organizations, including Itaú, Honda, and Órigo.
- Maintained client digital platforms and resolved frontend defects.
- Participated in debugging, technical improvements, and ongoing platform maintenance.

Web Development Intern

June 2018 – June 2019

- Supported the development and maintenance of web platforms for major Brazilian organizations.
- Built responsive interfaces and assisted with frontend implementation and debugging.
- Progressed from an internship into a full-time Front-End Developer position.

Selected Projects

KitchenAid Brazil Performance Optimization

KitchenAid Brazil | React, VTEX IO

- Led frontend optimization initiatives involving CSS architecture, rendering performance, and maintainability.
- Refactored legacy styling structures and reduced unnecessary frontend complexity.
- Improved overall website performance by 72% across desktop and mobile devices.

Instagram-Inspired Content Experience

KitchenAid Brazil | React, VTEX IO

- Designed and developed a reusable, mobile-first content experience inspired by social media story formats.
- Enabled marketing teams to showcase products, recipes, and branded content in a more interactive format.
- The solution was adopted as a reference for similar content experiences across other Whirlpool Corporation brands like Consul, Brastemp and Compra Certa.

Customized Checkout Experience

KitchenAid Brazil | React, VTEX IO

- Developed a customized checkout experience by extending native VTEX functionality.
- Improved purchasing workflows, usability, and flexibility throughout the checkout process.
- Contributed to a smoother and more consistent customer journey.

FL PsicoFlow

Founder & Lead Developer | Current Project

- Developing an AI-powered workflow platform for healthcare professionals.
- Building features focused on documentation automation, workflow management, productivity, and intelligent information retrieval.
- Applying generative AI and workflow automation to reduce repetitive administrative activities.

Education

Master's Degree in Information Systems — In Progress

Caroline University | California, United States

Bachelor's Degree in Computer Science

Universidade Nove de Julho | Brazil

Technical Diploma in Computer Support and Maintenance

Instituto Federal de Goiás | Brazil
